

Dog Training

DogBasics offers Basic and Intermediate Obedience lessons. The lessons include off lead socialising. The dogs are divided up in groups according to size and confidence level. Hoping to help improve your relationship with your dog, all our training covers dog language and by giving you the tools you can use to successfully train your dog (praise, treats, toys, body language, games, etc).

Dog day care & boarding

So sorry, I'm not taking on any new dogs at the moment. Day care dogs and boarding dogs at DogBasics have full days of fun. While you are at work, let your furry friend have a day of exciting activities, rewarding you with a tired, content pup at the end of the day. If you are going on holiday, we can offer a home away from home for your dog. No kennels! The dogs stay in the house with us as part of our family and are never left unsupervised, not even at night.

Advice

Having a dog can throw up all sorts of problems and hopefully you'll find some help amongst the DogBasics Article archive. The articles cover things like puppy nipping, noise phobias, food aggression, the relationship between food and behaviour, dog language, problem solving exercises to entertain your dog and basic training exercises. .
