"Can't recommend Caroline at DogBasics enough. Has a natural affinity with dogs and owners alike. We attended dog training weekly and felt that the sessions were extremely good value for the expertise involved. We also left our dogs with her when we went away for a weekend. It was so lovely to leave them in a friendly, dog experienced home. We will definitely continue to use Dog Basics in the future. "Until Caroline moved from Stalham in June we had been taking our Labradoodle for training every week and found Caroline to be a wonderful trainer who has an enormous knowledge of dog behaviour and an incredible rapport with all her "pupils". Chico is a VERY lively dog who we found difficult to control as a pup but now, although still boisterous and playful, is very obedient with perfect recall. All thanks to Caroline. Her classes, as well as being a serious training session, are enormous fun for the dogs who all enjoy a playtime together at the end of class and they and we have made good friends. We also have a rescued Lurcher/ Saluki cross and both of them stay as boarders with Caroline. It's always a problem to get them to come home with us as they have such a wonderful time with her. "My young dog has recently spent the day in Carolines care. I have to say I was worried he wouldn't want to return home with me, because he was having so much fun with her! I want to say a HUGE thank you for the excellent service provided, it was great to know he was being looked after by someone so enthusiastic, caring and passionate about dogs. My only regret is that Caroline doesn't live closer to York, where I could make use of her more often!!! I would highly recommend her, not only does she ensure your dog is walked and watched, they have so much fun too - the 42 pictures of him, which she sent me afterwards proves it!! Thank you! " Blue Lab from York, Yorkshire, came for day care

"Caroline is amazing with the dogs and our dog Holly loves her! We have really enjoyed the training sessions. Not only do you learn so much but they are good fun too. I went to the dog language theory class which was really interesting and helpful. It made me look at Holly and her behaviour differently. Caroline has got so much experience and knowledge about dogs and she has always been happy to provide advice and answer questions. We got Holly from 9 weeks and she is now 14 months. Caroline's advice, training and influence has helped to make Holly a gorgeous well behaved bundle of fun! Thank you! x " Holly Labradoodle from Hitchin, Herts, came for Dog training and dog day care

"I would highly recommend Caroline as a dog trainer and for dog boarding. My dog absolutely adored going to stay with her, he couldnt wait to get in the house. Importantly I felt I could trust her to look after my dog. I found the puppy training he had gave him a good start and the training whilst boarding also showed an improvement in him all the time. I would also recommend the dog language course, I think every dog owner should be made to take the course. I also loved the fact that you could go on walks with her at virtually any time and she always arranges weekend walks, long summer walks and Christmas walks which are great fun, socialisation for the dogs and owners. "Caroline was recommended to us from a guy i met while walking Buddy, and its not the first time DogBasics has come up in conversation, all positive i might add. We needed a trainer for our three month old energetic Labrador/springer as we had a bad experience with our previous one and attended the entry session, i was so relieved to find the lesson was held in such a calm environment and the fact that Caroline insists that the groups are kept small i could see that this was all about Buddy and not how many dogs could be taught at once. From that entry lesson we have attended a first aid course for dogs which was invaluable and also a dog body language course which was very interesting. We have also been on the dog walks which Buddy absolutely loved as he could socialize with other dogs while doing lots of activities. Caroline is a superb dog trainer and DogBasics is a must for any dog owner. " Buddy Springer/Lab X from Hitchin, Herts, came for Dog training

" My Husband and I would highly recommend Caroline. She understands dogs very well and also loves them very much. She is a natural at training, very skilled. She has strict standards and only wants the best for the dogs. She is a highly skilled lady who is happy to give advice if needed. I don't think you will find anyone better at dog training. Will be very sad to lose her from this area. " Molly Cockerpoo from Luton, Beds, came for Dog training

" I took Winston our crazy adorable chocolate labrador to Dogbasics when he was 8 months, he is now over 2 yrs old and now a well trained obedient (still bit crazy) adorable labrador. The lessons were enjoyable for both of us, we learnt so much and the socialising was crucial. I also attended the First Aid class which was great as I no idea what to do in an emergency except panic and ring the vets. I learnt how to bandage a wound area (prior to going to vet), treating strings, removing thorns or sharp objects from paws etc., treatment for sickness / diarrhoea and how to resuscitate your dog, this was obviously all very useful and definitely worth going just for peace of mind. Caroline is without doubt a fantastic dog trainer and her love for dogs shown throughout our time with her, Winston will miss his 'dog holiday' (boarding) as he always had a great time and made lots of new friends but most of all we will both miss Dogbasics and Caroline immensely. " Back in 2005, we wrote a testimonial for Caroline (see below), who we had known for over 2 years. It is hard to believe that nearly 9 years has gone by and she is still looking after Holly and Sandy each week. Sandy is now very old, nearly 16 years, and needs lots of TLC. He is partly deaf, has quite poor vision and gets easily confused- often walking off in the wrong direction on walks! He cannot be left with anyone else outside the family- apart from Caroline- who, however many other dogs she is looking after, is endlessly patient, respectful and caring of him. He still enjoys life and still loves Caroline. Holly, although 11, has retained all her Basenji independence and character and is SO excited every time it is her day to go to Caroline's. In all the years that we have known Caroline, she has never stopped learning new things about dogs. She is SO knowledgeable about dogs and their psychology, reliable, fun and caring and patient with us owners. We cannot recommend Caroline highly enough, whether you are wanting to learn about your dog, take fun agility classes or leave your dog in her very capable hands. We are all going to miss her dreadfully- Hertfordshire's loss is Norfolk's gain. Kathy and Craig Lucia " Holly X and Sandy X from Hitchin, Herts, came for training, day care, boarding

" I found DogBasics by chance, arranged to watch a puppy training class, joined up immediately & it's up there with one of the best decisions in my life. SERIOUSLY. Zac was four months old, adorable but getting his own way & becoming uncontrollable when we joined Dogbasics. Caroline found him highly spirited at first, but with her reward based training she taught me how to communicate effectively with Zac, so that he enjoys what we do together. Everyone loves Zac because he is not only beautiful, gentle & placid but also so very well-behaved. Well, most of the time! Zac simply loves Caroline. Whenever he boards with her he immediately loses interest in me & collecting him is so difficult because he NEVER wants to leave! Caroline has such a fundamentally deep & genuine love for dogs & they're fully aware of it which is why they all love her. In classes & on walks other dog owners & I have watched in bewilderment at how Caroline calls the dogs to her, waits for them to settle & sit before giving them treats or water. Such affinity has to be seen to be believed. Caroline is an invaluable friend & I would do anything for her. She is articulate, intelligent & has an abundance of common sense - a rare trait in a young lady!! Everyone loves Caroline & she'll be sorely missed by Zac & I. Our loss, your gain. Dale " Zac Setter X from Stevenage, Herts, came for training lessons and dog boarding

" Caroline is a really special person she is so in tune with the dogs that come to her and to see their excitement when they see her is very touching. Her training is great fun, for both humans and dogs. I have used Caroline's doggie day care and boarding for a number of years and I'm struggling to find someone who's care matches that of Caroline's. I would have no hesitation in recommending Caroline's services to anybody - she is a gifted trainer and her love of dogs is very clear. Good luck, Caroline, with the new business you will be very successful! Nina and, of course, Hamish who misses you very much! " Hamish Golden from Luton, Beds, came for Dog training, day care and boarding

" Henry our Whippet came into our lives some 4 years ago and at that time I wanted to obtain some basic puppy training. After searching on the internet I came across Caroline at Dogbasics. Her method of training is excellent and enjoyable. It is all reward based so the dogs know that they are going to get something nice for being good! I only did the basics training with Caroline and

perhaps should have done a little bit more as Henry is very good at the basics, but being a whippet can be a little mischievous when out and about! Henry has stayed with Caroline for the odd day care, however, has always spent the summer holidays with her while I am away on mine. I can relax completely when he is with her knowing how well he is going to be looked after. He is always super super tired when we get him home and relaxed. I must say like others have said, he comes across as a bit fed up for being back with us! He always looks so well when we collect him. Her set up is literally home from home and Henry adores her. I have had many dog walks with Caroline on a weekly basis. Henry being a whippet is always a little focused on other things while we are walking but Caroline having experience with sight hounds knows how to deal with him probably better than me. She always has a very relaxed approach whereas I tend to be a nervous wreck! This isn't very often as Henry is reasonably good. The walks are lovely as Henry gets to meet and play with other dogs and I get to have a nice natter with a lovely person. I cannot recommend Caroline enough to anybody. She will look after your dog as if it were her own. I know that I will really miss her and Henry too. Norfolk is gaining a really special person. Love Claire & Henry" Henry Whippet from Luton, Beds, came for puppy training and dog boarding

"Caroline performs magic on even the worse of behaved dogs. She loves them all. My pup, Ivy adores her, and can't wait to get out the car whether it be for puppy training, socialization or day care. We are very sorry to be losing her from the area. She more than enriched Ivy's life." Ivy Portuguese Water Dog from Lilley, Herts, came for puppy training and dog boarding

"If you are reading this testimonial to decide whether to choose DogBasics for dog training, boarding, day care or behavioural advice then you have hit the jackpot. Ralph had his first entry lesson as soon as his vaccinations were done and we have never looked back. He is now almost 4 years old and thanks to Caroline Kjall Ralph is well mannered, socialised and obedient with a repertoire of tricks (including moon walking!). Happily he retains his sense of fun and huge character because thanks to Caroline this hasn't been 'trained out of him'. We trained most weekends for the first year because we loved it. The dogs adore her and she takes no nonsense from us owners. I don't know where she gets her patience from but I am very grateful for it. Don't be fooled by Basics being in the title. She understands and explains the dog psychology and makes sense of everything they do. Her advice has been invaluable and I'm confident that is why Ralph is the dog he is today and why we have such a great bond. Ralph has also enjoyed sleepovers and holidays with Caroline. He loves her and doesn't look back when I drop him off. I'm not ashamed to admit I have to put him on lead to take him home! I couldn't ask for anyone better to look after him. He has so much fun. No kennels or outside pens, he has been welcomed into a home with doggy sofas and loads of toys. Perfect. I am eternally grateful to Caroline for all the advice ranging from the best treats to first aid essentials. She has answered every one of my stupid questions without making me feel stupid. Thank you Caroline. Lisa Quinn" Ralph Labradoodle from Luton, Beds, came for training lessons and dog boarding

"Caroline is an absolute gem! We were referred to Caroline when we first got our dog - Dicer, almost 5 years ago. Dicer means the world to us and Caroline knows that too. Caroline offers daycare and boarding for Dicer. The beauty with the service Caroline offers is that it's home from home; actually we are convinced it's even better!! An example of how we can be sure of this is when dropping Dicer off at Caroline's he never turns back. The hardest work for us is picking Dicer up from Caroline's home; we always have to use treats to get him back into the car. I remember once Dicer had to be walked back to the car by Caroline as the treats didn't work either; Dicer has such a brilliant time when staying with Caroline. The service Caroline has to offer is priceless as Dicer is looked after so well - at times I feel even better than with us as his owners! Caroline spends every single moment with Dicer with regular walks full of fun and play. Caroline is so loving coupled with excellent training skills for dogs; as owners we are always learning too. Most importantly Caroline's expertise and knowledge in dogs is paramount. It's a huge peace of mind knowing Dicer is looked after by Caroline even with the demands of our busy lifestyle. As dog owners we can assure you that your dog will always be looked after well and will have the best service and time whilst with Caroline. Caroline is extremely professional and reliable; she will never let you down. We highly recommend Caroline; you will never want to take your dog anywhere else!! We can't thank you enough Caroline for everything you do for Dicer. A Whoof Whoof - thank you Auntie Caroline - from Dicer too!" "Dogbasics has been a second home for my boy! If he has to be away from me there is no where else I'd rather him be. I always know he'll have had a busy day but most importantly, he would have had fun! Stan & I agree wholeheartedly with reward training, especially Stan, as he's partial to a treat or two! :D Thank you from the bottom of my heart for your training and guidance in raising my beautiful boy. What you've enabled us to have is immeasurable and I'm truly grateful. Stan wouldn't be the dog he is without your input. "Caroline has to be the Angel of Dogs. With extensive knowledge, and a historical background in everything doggie - including training, first aid, understanding different breeds and their personalities, she is an expert in her field. Only downside is, my dog loves her so much, she wants to stay there..... Dorothy" Millie Lab from Suffolk, came for training lessons and dog boarding

"I can't thank Caroline at DogBasics enough. When I arrived at her classes 8 years ago, little did I know how much I would learn about dogs. All these years later I'm still learning from her. Caroline still supports me and offers help and advise (which having a dog with more than his fair share of issues, she is called on a lot). Caroline's wealth of experience in understanding dog behaviour and training is reflected in the many years she has been working with dogs. She is happy sharing it all to anyone attending her classes, which is just brilliant to any dog owners. I am truly grateful! "I used to be the doge which I did not think I would be able to keep my border collie, Galu. He was a nightmare, particularly ... recall. Then we found Caroline and Dogbasics. What a godsend! Within just a few short weeks, Galu behaved well, mixed very well with other dogs, came back when called - a different dog! He loves going to Caroline and we still go walking with her and other dogs. We have also made good friends with the other dogs and their owners. Caroline really made a huge difference to my life, and of course to Galu's. "This testimonial is long overdue. We first took our highly spirited pup to an entry class in August 2010 and have continued to regularly attend classes and group walks ever since. During Zac's first puppy social group, my wife, Lynne, was extremely anxious to let him off the lead in case he didn't come back. There had to be at least 12 hours of daylight left before Lynne would even consider letting Zac run free. Caroline fully understood Lynne's concern and gave us a simple tip: run away from Zac when calling him. It worked and immediately gave Lynne the confidence to let Zac run free without any anxiety. Last week Zac spent a day with Caroline and had not seen her for a few weeks as she was on holiday. When I collected Zac he didn't want to come with me and, walking back to the car, I had to coax him constantly as he'd had such a great time with Caroline. DogBasics deserves full praise for successfully training of so many dogs and owners. Her approach to training works and is thoroughly good fun." "I was recommended to Caroline's puppy classes by my sister who also has a retriever. I was very impressed with the Entry lesson and following training sessions. The exercises helped Milo pick things up very quickly. The social classes were great for getting Milo used to being around other dogs. However it was the Dog Language Theory lesson that I found most helpful. It was there that Caroline gave me some great advice on what food would suit Milo, as he had been having trouble, and she even gave me a free sample of her own dogs food to try. The food by Burns that she recommend has been the only food that hasn't upset Milo's stomach and he's been doing very well ever since on it. We cannot thank Caroline enough, Milo also loves it! Caroline also put us in touch with a great website (ActivateYourDog.com) where we got a good quality lead and collar. Much better than others we had tried. Caroline was always very helpful, she has a lot of experience and really cares for each and every dog. Thanks again. Kerry" Milo Golden from Luton, came for socialising sessions and training lessons

"Caroline's dog training classes are great fun, both for humans and dogs! Caroline makes it easy to understand how to make things easy for your dog, so setting them up for success rather than failure. Hamish has grown in confidence hugely since I've been going. I occasionally have to leave Hamish in day care with Caroline but know that he'll have a wonderful time with his 'mates' and come home exhausted and happy! With any issues that have cropped up Caroline is always only too happy to help. I would have no hesitation in recommending DogBasics and Caroline to anyone wishing to enhance their relationship with their dog. "I joined as a complete novice to dog ownership with a very overweight Max. Wanted to see how he mixed with other dogs and also to give myself confidence around other dogs. Learnt that a barking dog isn't necessarily going to bite. We both enjoyed the games, I learnt to trust Max off the lead and even today I still use Caroline's training tips. I have even managed to get Max to retrieve a ball, something I never dreamed he would do. I have recommended DogBasics to several people over the past year. I now meet up with a group of dog owners every day and as Max has now lost half his body weight, he is happy to run and play with the other dogs. Like Caroline, I strongly believe in rewarding good behaviour and this has certainly worked when training Max. Thank you Caroline! Angela" Max Tibetan Terrier X from Luton, took Basic Obedience lessons

24 May 2012

"I took my Lhasa pup to the social classes with Caroline, they were very good and gave Mylo a good start to his doggie life, would highly recommend. He certainly gave the larger pups a run for their money." Mylo Lhasa Apso from Luton, came for socialising sessions

15 January 2012

"Larka started with Caroline from 4 months old, started with puppy classes. Caroline was excellent, Larka was so shy, but that soon changed, Larka became such a confident dog. We had Larka booked in for day care (photos will speak for themselves in Caroline photo gallery) and boarding. We will recommend Caroline in all these areas, we felt relaxed and re assured that all would be well on our return to collect Larka. Caroline is professional and knows her job very well. Larka is not with us any longer, through illness, but we are sure our next dog will be straight back to use Carolines services. Carolines home was Larkas second home, all the best to your business Caroline in 2012." Larka Lab from Luton, took socialising, Basic and Intermediate lessons and boarding

30 July 2010

"I would really recommend Caroline and DogBasics. As a completely new dog owner she has been a real help and people are always complimenting me on our walks about how well behaved my dog is. Poppy loves the agility and going to see Caroline." Poppy King Charles Spaniel from Luton, took a Basic Obedience course and agility

23 July 2010

"I am so glad I found Caroline! We started with our timid 6 month old puppy straight from a rescue home. One of the biggest problems we had with Paddy was that he always ran off when off lead. Caroline gave us some advice which cured it almost immediately! We also found that the socials helped a great deal. Paddy is now a very friendly and confident dog whose favourite

"I decided to attend DogBasics with my puppy after hearing so much about Caroline from people who had attended her courses in the past and I am so glad I did! I think that me and Harley have a fantastic relationship and I have much more confidence in both myself and Harley! I know Harley loves attending the classes and once he realises we are approaching Offley he can't wait to get out of the car!!! Thank you Caroline. 16 July 2010

"I would highly recommend Caroline. She is extremely friendly whilst always professional, calm and dedicated to teaching us owners how to train our dogs. She makes it all seem so easy and the results speak for themselves. I am very happy that I can board Lola with Caroline, she (Lola) can't get out of the car quick enough when we go there. She's always exhausted when she comes home having been thoroughly exercised & socialised with any other boarding dogs. The socialising lessons have proved invaluable! "We highly recommend Carolines Basic Obedience Course. We think it is very good value for money and every puppy, young dog would benefit from the experience. Communication is excellent, verbally and through a superb Website. Mr & Mrs Newman" Snoopy Mini Labradoodle from Luton, Bedfordshire, took a Basic Obedience course

2 April 2010

"I went to puppy training classes with our labrador Coco and Caroline provided excellent training with her great knowledge of dogs and was always happy to answer questions on particular issues with Coco's behaviour at home. My 11 year old son did the training classes with Coco and his comment is 'it was absolutely brilliant'. He asked to do more training so he is now booked in with Coco to do puppy agility with Caroline. Thank you Caroline for showing us how to give Coco the positive training to produce good behaviour and many people have commented on how well behaved puppy she is. Karen " Coco Labrador from Knebworth, Hertfordshire, took a Puppy course

1 June 2009

"Malachy receives so many compliments for his good behaviour and nature in public places that I feel I should thank you for all your help with his training. We can take him anywhere and he will behave (sometimes only with the tastiest treats but he he!) At 9 months he still has plenty of mad moments but I'd be worried if he was any other way. Your style of training was fun and informative and we enjoyed it immensely. Thanks Caroline. Nicola " Malachy Labradoodle from Luton, Bedfordshire, took Puppy and Basic Obedience course

9 April 2009

"Rocky and Herbie are our first dogs (after 20+ years of being cat owners) and without Caroline's support being a dog owner would have been a much more stressful experience! Her love for dogs, knowledge, determination and constant support has been an inspiration to us both. Our dogs adore her and without her support we would still be scratching our heads and tearing our hair out and may have had one dog with only three legs if it hadn't been for her calm approach in a recent crisis! "Caroline is superb!! She is an excellent dog trainer, with so much valuable information and advice. Caroline is really down to earth and makes you feel so welcome. Holly and I have learnt some excellent training techniques and I now have a happy, obedient and well trained dog. I also have more knowledge of how a dog thinks!! Holly came to Caroline at 12 weeks of age for puppy socialising, and we still continue to see Caroline when we can. I fully recommend DOGBASICS - and have done to Family & Friends. I am so pleased with Holly, she is a pleasure to own. Thank You DOGBASICS, Thank you Caroline! Vicki Powison & Holly" Holly Lab from Houghton Regis, Bedfordshire, took IC course

"I am the proud owner of an obedient, happy and healthy whippet. Friends and family all warned us against getting a whippet as they are supposed to be hard to train, but they are now all eating their words as my dog's good behaviour has amazed them all. I have by far the best trained and most obedient dog of all, with the only exception being when he sees a rabbit - but I guess you can't train instinct and generations of breeding out of them! Caroline's methods are amazing, watching her with the dogs is a real pleasure. The training is entirely reward based, is very kind, and great fun. I would recommend Dog Basics to anyone with a real interest in their dog's happiness and obedience. Gini "

"Joseph and I attended the Introductory Course and some Puppy Socialisation whilst we were in the UK, waiting for Joe to be able leave the country and return with me to Spain. All Caroline's sessions are full of good practical advice and Joe and I learned a lot. I particularly like all the positive way in which Caroline works. We continue to try to put her ideas in to action, sometimes with more success than others :-). We are only sorry we are unable to carry on with our training but hope to visit when we are next in the UK next year. Sue Tasker"

"When we took on Stanley we had no idea about dogs or dog training. After looking around and speaking to people I knew with dogs Caroline came highly recommended. We booked onto the initial course and have been highly impressed with the results and information given. We come away from every session knowing something new and a worn out dog. Caroline teaches in a way that is easy to understand and seems able to answer any questions you have about dogs. We feel we have a much better understanding of Stanley and will continue to use DogBasics and Caroline in the future. Dave Tew"

"We have used DogBasics for boarding our dog (Bailey) whilst we were on holiday. The initial tester visit was perfect and we felt happy that Bailey would be looked after and loved by Caroline just as the same as he is back home. Bailey had an amazing holiday at DogBasics and came home tired but clearly having had a great time. Carolines knowledge and passion for dog training is amazing and catching. The services offered are so great we then signed up for training classes and agility classes and travel a 3hr round trip to do so (so she must be doing something right). We've just welcomed into our home a second puppy and we wouldn't dream of her doing her training anywhere else but at DogBasics. Natalie Walker"

"Caroline as been so helpful, even before we collected our new puppy she was extremely approachable and supportive. She clearly has a great knowledge and understanding of dogs which she presents in a clear and accessible way. The classes are both fun and informative and we are grateful for all she has done for us so far. Wendy"
